Mr. EDEN TOWNSEND is hereby authorized to transact for us any business connected with the NEWS and JOURNAL OFFICE, of this city.

ON THE OUTSIDE OF THIS ISSUE.—First Page—A Duelist.

Rather a slow Telegraph they must have, over there in Warren—not much of the "electric" about it—to have been so long engaged in dispatching the very moderate reference it makes to our last article relative to the Telegraph aforesaid. Well, the weather has been warm, and superfluous in its tenderness, and perhaps we ought not to complain. May be it has been extra warm in Warren—so warm that the Telegraph wouldn't work! If so, nobody is to blame. Only we think our neighbor might have spared, under the circumstances, the ungenerous fling he makes at the end of his article.

By the way, since the Telegraph thinks that "Robert J. Walker is not going to enslave Kansas, after all," the editor will not, we trust, forget that it is that same R. J. Walker who, in his inaugural, suggests the possible enslavement of the Indian territory lying South of Kansas, as a thing that may properly soothe the disappointment of the slave-drivers, should Kansas escape their clutches. Mark that, good Mr. Telegraph! and please to note again the tenor of our article in last Friday's Daily News, entitled "A Snare Suspected."

An improved method of obtaining and managing heat has been brought into practice in Paris. The general principle is such an arrangement of fluted or plain tubes, with tufts of wire passing through them, to be heated in any convenient manner, as while hot can have water continually to flow over or through them. The heated surface being extensive in proportion to the water to be heated, keeps the latter in a constant state of ebullition, and by passing in that state through other pipes, so as to re-circulate over the heated surface, great economy of fuel is claimed to result.

"This Education forms the common mind Just as the twig is bent the tree's inclined."

About forty years ago the parliament of Great Britain, for the first time after a protracted debate appropriated thirty thousand pounds for the education of the poor, and without a question being asked voted at the same time seventy thousand pounds for the repair of the King's stables. To sustain the divine right of Kings, and the influence of the Priesthood, the people of England had been so bent in their twofold that they thought this appropriation to a level with their Christ-like sovereign's horses, was a favor to be thankful for. But it should be remembered that the twofold of both Kings and Priests had been, and still are, bent in a direction that inclines them to grasp and exercise all the power that the great body of the people can beajoined or forced to yield to them.

Col. John W. Forney, being dissatisfied with the course pursued by the proprietors of the Pennsylvania—which paper, it was at one time rumored, was to pass entirely into his hands—has announced the publication of a new daily in Philadelphia, to be called The Press. Col. Forney has made a strong mark upon the time, and though he has many enemies has yet a corresponding proportion of friends. Some of the Philadelphia letter-writers indicate that there are already too many dailies in the city, and that the new undertaking must be a failure. This seems to us not by any means sure, and the Press may yet very easily grow to be the great newspaper power of Philadelphia.

The statement several times made, and quite as often denied—that many of the Mormons at Salt Lake city were growing tired of the rank abominations and cruel tyranny of Brigham Young—seems at last to have received positive confirmation. Some thirty of those connected with the society reached Omaha city on the 2d July, having made good their escape from Salt Lake after much difficulty. They report the iron hand as growing more and more stringent, death following upon attempted desertion whenever discovered, and the anxiety felt in the Territory for the arrival of the U. S. troops, steadily increasing.

A young man in England lately had a needle penetrate his breast and enter his heart, breaking short off, and leaving nearly three-fourths of an inch of steel in the muscles. To extract the needle, the surgeon laid bare the surface of the heart, and the portion of the needle was drawn out with forceps. Inflammation had set in; but it is regarded as a most uncommon operation and singular accident, showing that even the heart itself may sustain a sharp wound without death immediately following.

A SPEECH OF WAR AGAINST HOOPS.—It is reported about town that the railroad wharfmen will shortly call a convention to discuss the expediency of levying toll upon carolines. The proposition is to charge ladies sporting hoops double fare, in consequence of the space they fill.

Hon. Charles Sumner, who is now in London, has recently been invited by the Boston Chamber of Commerce to deliver the first time such courtesy was ever extended to a stranger.

LOCAL NEWS.

Mr. Pearce, of the Fall River Star, took a trip down the bay a few days since, in the Metropolis, the effect of which was to produce a very spicy editorial in that sheet, on the pleasant trip aforesaid. It will be remembered that the STAR is the journal which immortalized itself on the Fourth, by producing that famous "bake," to say nothing of its remarkable success in the News-paper line. We are pleased to see that it will soon be enlarged, when better scope will be had for its wise and agreeable instructions.

Although naturally modest, we cannot refrain from publishing the following extract, in which we find ourselves complimented much more than we deserve:

"For a wonder, Newport was last evening free from fog, which we are told has not been the case of an evening before for a week past. We called on our neighbor of the Daily News, and as his is a morning paper, we found him busily engaged with pen and scissors, furnishing 'fodder' for his compositors. Mr. Hammond is a wide-awake Yankee, and under his management the News has increased largely in circulation, worth and influence, since it passed into his hands."

We attended the Musical Re-union of the Germans on Monday evening, and enjoyed on that occasion an entertainment of the most delightful kind. It has never been our fortune to listen to a performance where the selection and the execution of the pieces were happier and more complete. The unfavorable state of the weather prevented an overflowing house; but a large number of families from the inhabitants proper of the city were present, and tasted the highest gratification. At a second concert of this Band, we cannot doubt that rich returns will result from the golden opinions which were won last Monday night, by the careful and masterly character of its first performance.

Mr. E. B. Irish having purchased the estate corner of Marlboro and Thames streets, has by the judicious outlay of a few hundred dollars, wonderfully improved the same. A coat of drab colored paint, and a suite of blinds, has really converted this once unsightly structure into a tasteful building. We are always glad to record any improvements on our principal business thoroughfare.

The music at Fort Adams yesterday afternoon gave great satisfaction. It is hardly necessary to say that every one is pleased with the anticipation of frequent repetitions of the same treat. The kindness of the Band and of the officers of the Fort deserves unqualified praise; and that they have already received.

Miss Anna Andrews, the young lady who has gained so much enviable notoriety, by her devotion, and attention to the sick and dying during the epidemic at Norfolk, and to whom a Gold medal was recently presented at New York, is expected in a few days to visit Newport, to regain her friends here. Miss Andrews was urged to receive a service of plate, but refused any public testimonial. The consciousness of having done good and alleviated suffering, being to her kind heart an ample reward.

Is pork healthy food? The hog disease has turned the thoughts of some to this subject. The law of Moses which seems to have been based on sound principles, condemns the article as food for man, and it is said that the Jews to the present day, are free from scrofulous diseases. Hogs are nearly all fat. The fat of all animals seems to be derived from elements in the atmosphere—that contain little if any of the base that gives strength either to the animal or vegetable kingdom. The bones and sinews perhaps derive but little if any strength from any species of food that leaves no ash when burned. If so, fat when burned goes exclusively to the atmosphere. It may make fat, or it may stimulate the vital powers of the laboring man, very much the same as spirituous liquors do; but it may not furnish any additional strength.

Does not the use of such gross food also tend to inflame the passions, cloud the intellect, and brutalize the mind of man? Close observation, I think, will favor the supposition that it does.

But if the hog is to be exploded what is to be done with the refuse of our kitchens? Experience has satisfied me that this is of more value if thrown on pasture land, where the poultry, cattle and sheep can have access to it, than if fed to hogs. It is both healthy and nutritious to poultry, and the cattle and sheep will eat the green refuse.

We have just conversed with a gentleman who is fully conversant with the condition of the crops in the Western States, and he informs us that there never has been so large a yield of wheat and grain of every description. Much of the wheat has been harvested in excellent condition, and the weather is very favorable for securing the crops now standing in the fields. There is no use to fret about crops—prices of bread-stuffs must come down.—Boston Dec.

MILITARY GLORY.—During the Mexican war, a company (G) of 105 effective men was shipped from Detroit. The company was detailed for grand duty at Camp Ilegu near Vera Cruz. Of these 70 were out of in the forty days before Vera Cruz. Five more were returned afterwards. The small remnant of 30 men returned from the campaign, and went into quarters at Detroit. Of these, 15 have since died—and of the 15 more living, not one is capable of doing hard labor.—Boston Dec.

GENERAL NEWS.

SAD DISASTER AT THE WHITE MOUNTAINS.—We learn by telegraph that the Plume House, at the White Mountains, was struck by lightning at about the middle of the afternoon of Saturday, by which two persons were instantly killed. One of them was Mr. W. H. Smith, of the firm of Wright, Davis & Co., carpet dealers, over the Boston and Maine railroad depot, in this city. Mr. Smith was a man of not much over thirty years of age, and of active business habits, whose sudden death will be severely felt by his numerous relatives and friends. He left this city last week, taking with him his wife. He has one child, and a father and mother, residents of Assonet. The other person killed was Mr. Blanchard, of Bethlehem, clerk of the house.

By the 1 p. m. train of to-day, the widow of Mr. Smith, with the body of the deceased, reached this city. By passengers in the train we learn the following facts in regard to the disaster:

The lightning struck a flagstaff erected in front of the house, on the 4th of July last, descended the pole until it reached the wire of a bell, and thence entered the house.

Mr. Smith was sitting in the parlor when he was struck and killed. Mr. Blanchard was writing at his desk. A child near him was stunned and slightly injured, as were also a number of other boarders in the vicinity of the persons killed.—Boston Trav.

GEN. WALKER'S PLANS.—The St. Louis News professes to give some inkling, "on good authority," of what Gen. Walker is doing and expects to do. "That journal says: Gen. Walker can secure five thousand men and a quarter of a million of dollars, besides cannon, shells, shot, ammunition and supplies to any needed amount, within thirty days notice. The money (\$250,000) is ready and subject to his draft at any moment. Walker does not desire more than one thousand men, as he is satisfied that with that number of men he can conquer and keep possession of Nicaragua in spite of all the Central American armies that can be brought into the field against him. He is operating quietly at present, and keeps his own counsel; but the departure of another expedition from New Orleans sometime the coming fall, well appointed, and with Walker at its head, is an event that may be seriously expected.

In the contest now progressing between England and China, the former power displays her usual characteristic, the acquisition of immense spoils at the expense of much blood. It is unquestionably the desire of England to obtain direct communication with all ports and points of the Celestial Empire, at the same time shaping her course so as to exclude the other great powers of the world from enjoying such extensive advantages of international communication. The history of China records the events of sixty thousand years. In this history England wishes to make a breach similar to that made in the annals of India a century since. Her object is to disjoin the Empire, cut up the provinces, annihilate the race of Emperors, and establish in Canton, Peking, Nankin, and the islands in the Yellow and China Seas a military force sufficient to control the English Empire in China. The efforts to enlist the co-operation of the United States and of France, to facilitate the accomplishment of this object, though they have not been successful, have had the effect to make England look within her own dominions for resources to effect the end in view. For this reason she trembles at any outbreak in Bengal, and for this reason it has been declared necessary to drill the yeoman at home, while the organized force prosecutes its march of conquest abroad. These, also, are some of the signs of the Times.—Prov. Tribune.

"BACHELOR'S SERVANTS.—A bachelor housekeeper has no more to say at home than one of his own hens. He may, every now and then, assume a semblance of power, but the Amazons in his employ, whatever may be the master's seeming advantage before strangers, always close the campaign in reality victorious. The married man, too, as in affection and interest bound, generally give up one half of the authority to their wives, well knowing that if they do not, they may lose the whole. One thing is obvious that the scoldmaster the husbands interfere to correct the female department of the kitchen, the better. They are apt to do so without any cause existing in the individual case of complaint; and if there be an appeal to the mistress, and the master round decidedly in the wrong, then between the two he feels very small. Besides, when a master interferes, he is apt to say too much; whereas, the mistress has not only more experience in such matters, but more prudence too."

SINGULAR ORIGIN OF A CHURCH.—It is mentioned as a singular fact, that the Baptist Church at Pennypack, near Philadelphia, and from which the first Church in that city originated, commenced under the ministry of a Mr. Elias Kneel, who first appeared under a kind of freak, in 1686, acting as an impostor. He passed himself off as a minister, dressing in black and wearing a gown and bands. Many persons assembled to hear the young London divine, and for awhile he proceeded in his sermon very well; but suddenly he stopped short, and was supposed by his hearers to be taken ill. On being questioned, he frankly confessed, with trembling and many tears, that he had been practising deception in holy things.—He afterwards became pious, was baptized and ordained, and pursued his ministry with much success.

New York is getting stupid. From Saturday evening to Monday morning there was not a riot nor a row, except the opposition of the sailors to the shipping of a crew without the advance. It does not appear that Mayor Wood took the part of the rioters, and he ought to have the credit of it. He did not even get out an injunction. A part of this unusual quiet may have been owing to the fact that two of the Mayor's chief friends and supporters were arrested Saturday, and the Judge that lets out all the Mayor's sort of prisoners being out of town, they had to remain in jail over Sunday. The liquor shops were generally closed. The Dead Rabbits, the Forty Thieves and the Atlantic Blues did think of getting up a sham fight among themselves, to draw out the police, and then all join together against them; but the plan was not carried out.—Penn. Inquirer.

ONE OF THE LARGES.—Among his many other high sounding titles, the King of Ava has that of "Lord of Twenty-four Umbrellas." This looks as if he had prepared himself for a long reign.—Boston Dec.

The U. S. sloop-of-war Germantown, Commander R. L. Page, at the Norfolk Navy Yard, was put in commission on the 16th inst., and in the afternoon of that day was towed down to the anchorage by the steamer Water Witch. The U. S. practice ship Preble, commander Green, was towed down from the Navy Yard the same day, by the steamer Water Witch, to the naval anchorage. Lieut. Alexander M. DeBroe has been detached from the U. S. receiving ship Pennsylvania, and ordered to the Preble.

A CARD TO THE LADIES. Dr. DePue's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever this is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$1 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thames street. They will supply the trade at manufacturer's prices. Ladies, by enclosing \$1 to STERGEN & CO., Box 24, Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. jy23-1y

ALPINE HAIR BALM FOR Restoring Gray Hair to Its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair, and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient, always all irritation of the scalp, thereby stopping the itching and itching. It cures Dandruff and Scurf, and when the Hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling off, as will be seen by using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine your hair that has been colored for a week, you will find towards the roots that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To restore a Bald head to its natural color, this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the Hair to its natural color by making anew the coloring matter in the roots of the hair. It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm, will restore the skin and save the hair of those who have been sick with fever or any disease. Prepared by C. A. P. MASON, Providence, R. I.

LATEST NEWS.

BY TELEGRAPH.

FROM KANSAS—FIRE.

St. Louis, July 21.—Kansas advices state that the Municipal ticket was elected at Lawrence on the 13th. Mr. Blood is Mayor. St. Louis, July 20.—A gentleman from Kansas states that at a public meeting on Thursday, it was determined to resist the U. S. troops, if an attempt was made to collect the taxes. A gentleman had met Gov. Walker ten miles from Lawrence, with seven companies of Infantry, and he said he would arrange matters peaceably, if possible, but that he would use force if necessary. The Free State men were hurrying to Lawrence, and Gen. Lane had been sent for.

The extensive wooden ware store of Cavender & Marston was burnt last night. Loss heavy; insurance \$20,000. The Monroe House adjoining was damaged to the amount of \$6000.

MADAME LA GRANGE'S BENEFIT.

New York, July 21.—Madame La Grange had a splendid house at the Academy last night, on the occasion of her benefit. The receipts were nearly \$3000. At the close of the first act, Col. Fuller of the Mirror, in behalf of some five hundred gentlemen, presented Madame La Grange with a lyric crown of solid gold, forming a wreath of leaves and acorns.

George Patten, clerk in a store in St. Louis, having applied opprobrious epithets to a seamstress named Rebecca McCord, living in another part of the house in which he resides, the enraged needlewoman gave him a most energetic and effective crowding, after which Patten got a knife, and challenged her to renew the conflict, and she actively complying, stabbed her near the heart, it is thought fatally.

LUCK MIGHTIER THAN CALCULATION.

Ten men are startled by their luck, while one is rewarded with prosperity by his calculations. Almost all the results of speculations are matters of chance, rather than of financial skill, as so many circumstances contribute to defeat men in their business operations. The political economists all maintain that he who distributes money most rapidly blesses the community the most, and therefore the lotteries which prove luck to be superior to calculation are to be respected, particularly when they are conducted by estimable citizens, like Swan & Co., of Atlanta, Georgia. These gentlemen draw, under the sanction of the State authorities, a lottery every Saturday, in which the prizes range from twenty dollars to fifty thousand. Every ten tickets is sure to win one prize at least, so that chances are excellent. By remitting ten, five, or two dollars and a half to their address, the ticket will be secured and sent promptly by mail. The prizes are always paid with equal promptitude.

Holloway's Ointment and Pills.—Neither caustic nor the knife can be required in the treatment of wounds, ulcers, tumors, or scirrhous swelling, to which Holloway's Ointment has been applied in time. The effect of the Pills on the digestive apparatus is all but miraculous. There is an unfailing test by which to know the genuine, viz., the Water-mark, "Holloway, New York and London," which appears in semi-transparent letters in every leaf of the book of directions. Unless the same are plainly seen in the paper when held between the eye and the light, the book and the medicine it envelopes is counterfeit.

RATHBUN'S

Amalgamotype Gallery.
AT APOTHECARY HALL, WASHINGTON SQ.
(Near the State House.)

THE only place in the city where a good picture can be obtained. The brilliancy and striking life-like expression of Rathbun's Pictures, are daily recommending them to all lovers of Perfect Likenesses.

The peculiar nature of Rathbun's chemicals and superior instruments (for which he has spared no expense in selecting) are such that they are entirely devoid of that sickly, death-like appearance which is generally attached to Amalgamotypes executed by those who do not understand or have no taste for the art. To all those who may want a good picture, whether Amalgamotype or Melanotype, I would extend to them an invitation to give him a trial, and if it is not satisfactory, no charge will be made. A large assortment of every thing pertaining to the profession may be found at Rathbun's Rooms, P. H. RATHBUN, Artist.

COAL.

LYKENS VALLEY COAL—The subscriber was the first to introduce Lykens Valley Coal into this market, and it has proved a good family coal. The only objection to it is the clinker and the manner in which it has been shipped for the last two or three years. I have now to offer the Trevorton coal equal in all respects, and superior, as regards both the manner of shipment and the clinker. Certain interested parties have endeavored to coerce the dealers in this and other markets into the purchase of the L. V. coal of me, by means of advertisements, and I have accordingly sold (sold for Lykens Valley) of them, were punning off an inferior article upon the public. Persons unacquainted with the Trevorton Coal can examine and test it with the Short Mountain (Lykens Valley) coal, at Wm G. Peckham's on or the wharf of the subscriber.
